FINANCIERS CONFIDENT

King's Sudden Death Doesn't Affect Trade Centers.

EXCHANGE SESSIONS SHORT

Short Passing Away of the Ruler of Great Britain Leaves Market Without the Powerful Sentimental Influence of Coming Potent.

(By Associated Press.)

NEW YORK, May 7.—The brief Saturday sessions of the stock exchanges of the continent of Europe and in New York, further curtailed in the latter case by the early adjournment, were long enough to give opportunity for a demonstration of financial confidence in the situation left as a result of the sudden death of the king of England. No exchanges were opened in Great Britain, but it is not to be supposed that other financial markets would be exempt from the effect to be looked for in the home markets. The very suddenness of the event left it without the powerful sentimental influence of a coming potent.

Allowance must be made for the part played by supporting odds by

the stronger financial interests in the day's advance in New York prices. The market gave clear evidence that no severe pressure was encountered to oppose the support.

The New York market is most interested in the effect which will follow upon the newly awakened foreign demand for new American securities, which was the feature of the past week.

No attention was paid to general conditions, although the American Railway Association reported an increase in surplus freight cars to 96,219, the largest showing of idle equipment since September first of last year.

The bank statement explained the easing tone of the money market by the substantial recuperation which has been effected in the condition of the banks.

Bonds were irregular. Total sales par value, \$1,975,000. United States bonds were unchanged on call during the week.

Total sales for the day were 278,000 shares, including: Chesapeake & Ohio, 3,500; Louisville & Nashville, 200; Norfolk & Western, 700; Reading, 35,000; Southern Pacific, 39,400; Southern Railway, 500; pfd., 200; Union Pacific, 36,000; United States Steel, 58,900; Virginia Carolina Chemical, 700.

Closing List.

Chicago Grain Market.

CHICAGO, ILLS., May 7.—Short

sellers were on the run in the wheat

pit today. Leading longs had the

whiphand, forcing covering on stop

loss orders and doing considerable

in the way of taking profits. Crop

damage news was of secondary

importance to the market position. Light-

ness of the May delivery was used as

a means to put the screws on both

the July and September options. The

deferred futures closed 1½% to ¾
